Summary

I am passionate about solving real-world problems through technology and enjoy building efficient, user-friendly software solutions. A software engineering role aligns with my skills and offers continuous learning and growth in a dynamic environment.

Education

Adichunchanagiri Institute of Technology

Bachelor of Engineering - Electronics and Communications Engineering 85% 11/2021 - 05/2025

Government Independent PU College

Science (PCMB) 84% 06/2019 - 06/2021

Narendra High School

SSLC 86% 02/2019

Skills

Programming • Python • SQL • C

Cloud • AWS

Web Technology • HTML • CSS • BOOTSTRAP • JAVASCRIPT

RDBMS • Oracle • MY-SQL

Python Libraries • Numpy • Pandas • Open CV • Tkinter • Django

Projects

Personal Portfolio Website

Chikmagalur, India

04/2025 - 06/2025

Created a responsive personal portfolio website to showcase academic achievements, technical skills, and project experience.

- Designed and developed a fully responsive website using HTML, CSS, and JavaScript to highlight personal and professional accomplishments.

Optimized Data Transfer using Hybrid Light Fidelity and Wi-Fi Networks

Chikmagalur, India

08/2024 - 11/2024

Developed a hybrid system using Light Fidelity for high-speed data and Wi-Fi for reliable connectivity

- Engineered a hybrid communication system leveraging Light Fidelity for ultra-fast data transfer and Wi-Fi for uninterrupted connectivity

Face Recognition Attendance System

Hassan, India

02/2023 - 05/2023

Face Recognition Attendance System using OpenCV and Python

- Automated attendance management using face recognition, achieving over 90% accuracy and reducing human errors and time consumption.

Experience

Pentagon Space

Bengaluru, Karnataka

Full Stack Python Developer

02/2025 - Present

Pentagon Space is a skill development and training institute that offers courses in data science, AI, software development, and other emerging technologies. It focuses on bridging the gap between academic learning and industry requirements through hands-on training.

- Gained proficiency in Data Science and Python through real-time projects and industry-based solutions.
- Improved problem-solving and analytical skills by working on industry-relevant case studies and coding challenges.

Certification

CMOS Digital VLSI Design Certification on CMOS Digital VLSI Design
